DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1, 2, 3 8, 9, 11, 12, 13, 14 and 32, in the reply filed on 12/10/2004 is acknowledged.

2. It is brought to applicant's attention that claims 11-14 are directed to the nonelected species of an inline produced packet containing a multi-sheet booklet. Therefore, the Examiner withdraws claims 11-14 from consideration.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "additional rectangular insert paper sheets" such that they are distinguished from the "plurality of insert paper sheets" (claim 1) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. In the event that applicant should rely on Fig. 4 to show the recited "rectangular insert paper sheets", applicant is reminded that Fig. 4 is a species non-elected without traverse.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-3, 8, 9 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, subparagraph e, it is unclear if "the insert paper sheets" refers to the "plurality of insert paper sheets" or the "additional rectangular insert paper sheets".

In claim 2, "the two super posed rectangular outer wrap envelope panels" lack antecedence.

In claim 2, subparagraph b, it is unclear if "the insert paper sheets" refers to the "plurality of insert paper sheets" or the "additional rectangular insert paper sheets".

In claim 2, the "insert sheets" have not been defined to warrant the language "their adjacent common side".

In claim 2, "the fold line" lacks antecedence.

In claim 2, subparagraph c, it is unclear as to what element "their adjacent superposed outer wrap envelope panels encloses" refers.

In claim 8, "the printed insert sheets" lack antecedence.

In claim 8, it is unclear if "a self sealed contact adhesive" is the same adhesive previously recited in claim 1.

Claims that have not been specifically mentioned are rejected since they depend from claims rejected under 35 U.S.C. § 112, second paragraph.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-3, 8, 9 and 32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Steidinger.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
